

## Wellbore History

## OPERATIONS AND RESULTS

Appraisal well 15/3-10 was spudded with the semi-submersible installation Deepsea Bergen on 5 June 2018. The well was drilled to 990 m but due to failed cement operation of the surface casing, the well was abandoned.

The well did not fulfil the objectives.

No cores were cut. No fluid sample was taken.

The well was permanently abandoned on 13 June 2018 as a junk well. Replacement well 15/3-11 was initiated.

No drill stem test was performed.
