

**GENERAL**

Well 30/6-13 R is a re-entry of well 30/6-13, which was suspended after having tested oil and gas in the Brent Group. The purpose of the re-entry was permanent abandonment

**OPERATIONS AND RESULTS**

Well 30/6-13 was re-entered (30/6-13 R) with the semi-submersible installation Treasure Hunter on 8 September 1986. The well was plugged without any problems.

The well was permanently abandoned on 11 September 1986 as an oil/gas appraisal well.

**TESTING**

No drill stem test was performed.
