

GENERAL

Well 34/10-3 R is a re-entry of well 34/10-3, drilled in the Delta area in block 34/10 in the Northern North Sea in 1979. The purpose of the re-entry was plugging and permanent abandonment.

OPERATIONS AND RESULTS

Well 34/10-3 was re-entered with the semi-submersible installation Ross Isle on 3 October 1987.

The well was plugged and the well was permanently abandoned on 10 October 1987.

TESTING

No drill stem test was performed.
